

# Kambale Mechack

## Web Developer

### Profile

Web enthusiast and technology, I'm a web developer since more than 4 years now. I've been working as a Frontend developer for 3 years at HPS Dev and Design, I designed several projects. Since 2019, I decided to become a full stack developer and I started by learning Nodejs and Express.

### Professional experience

#### Front-end developer, HPS Design

03 2018 - 05 2022

Kampala

As a web developer I worked on several projects, sometimes under clients pressure or team mates despite all those pressures I'm happy because it made me stronger. I developed projects such as an E-commerce web application, Schools websites, Portfolios and many other projects.

#### Front-end developer, Vodacom

07 2017 - 01 2018

Beni

A professional training, after getting my bachelor. I learned how to work as a professional web developer.
